

Silver-top[®]
... THE AWNING THAT CAN EASILY GROW

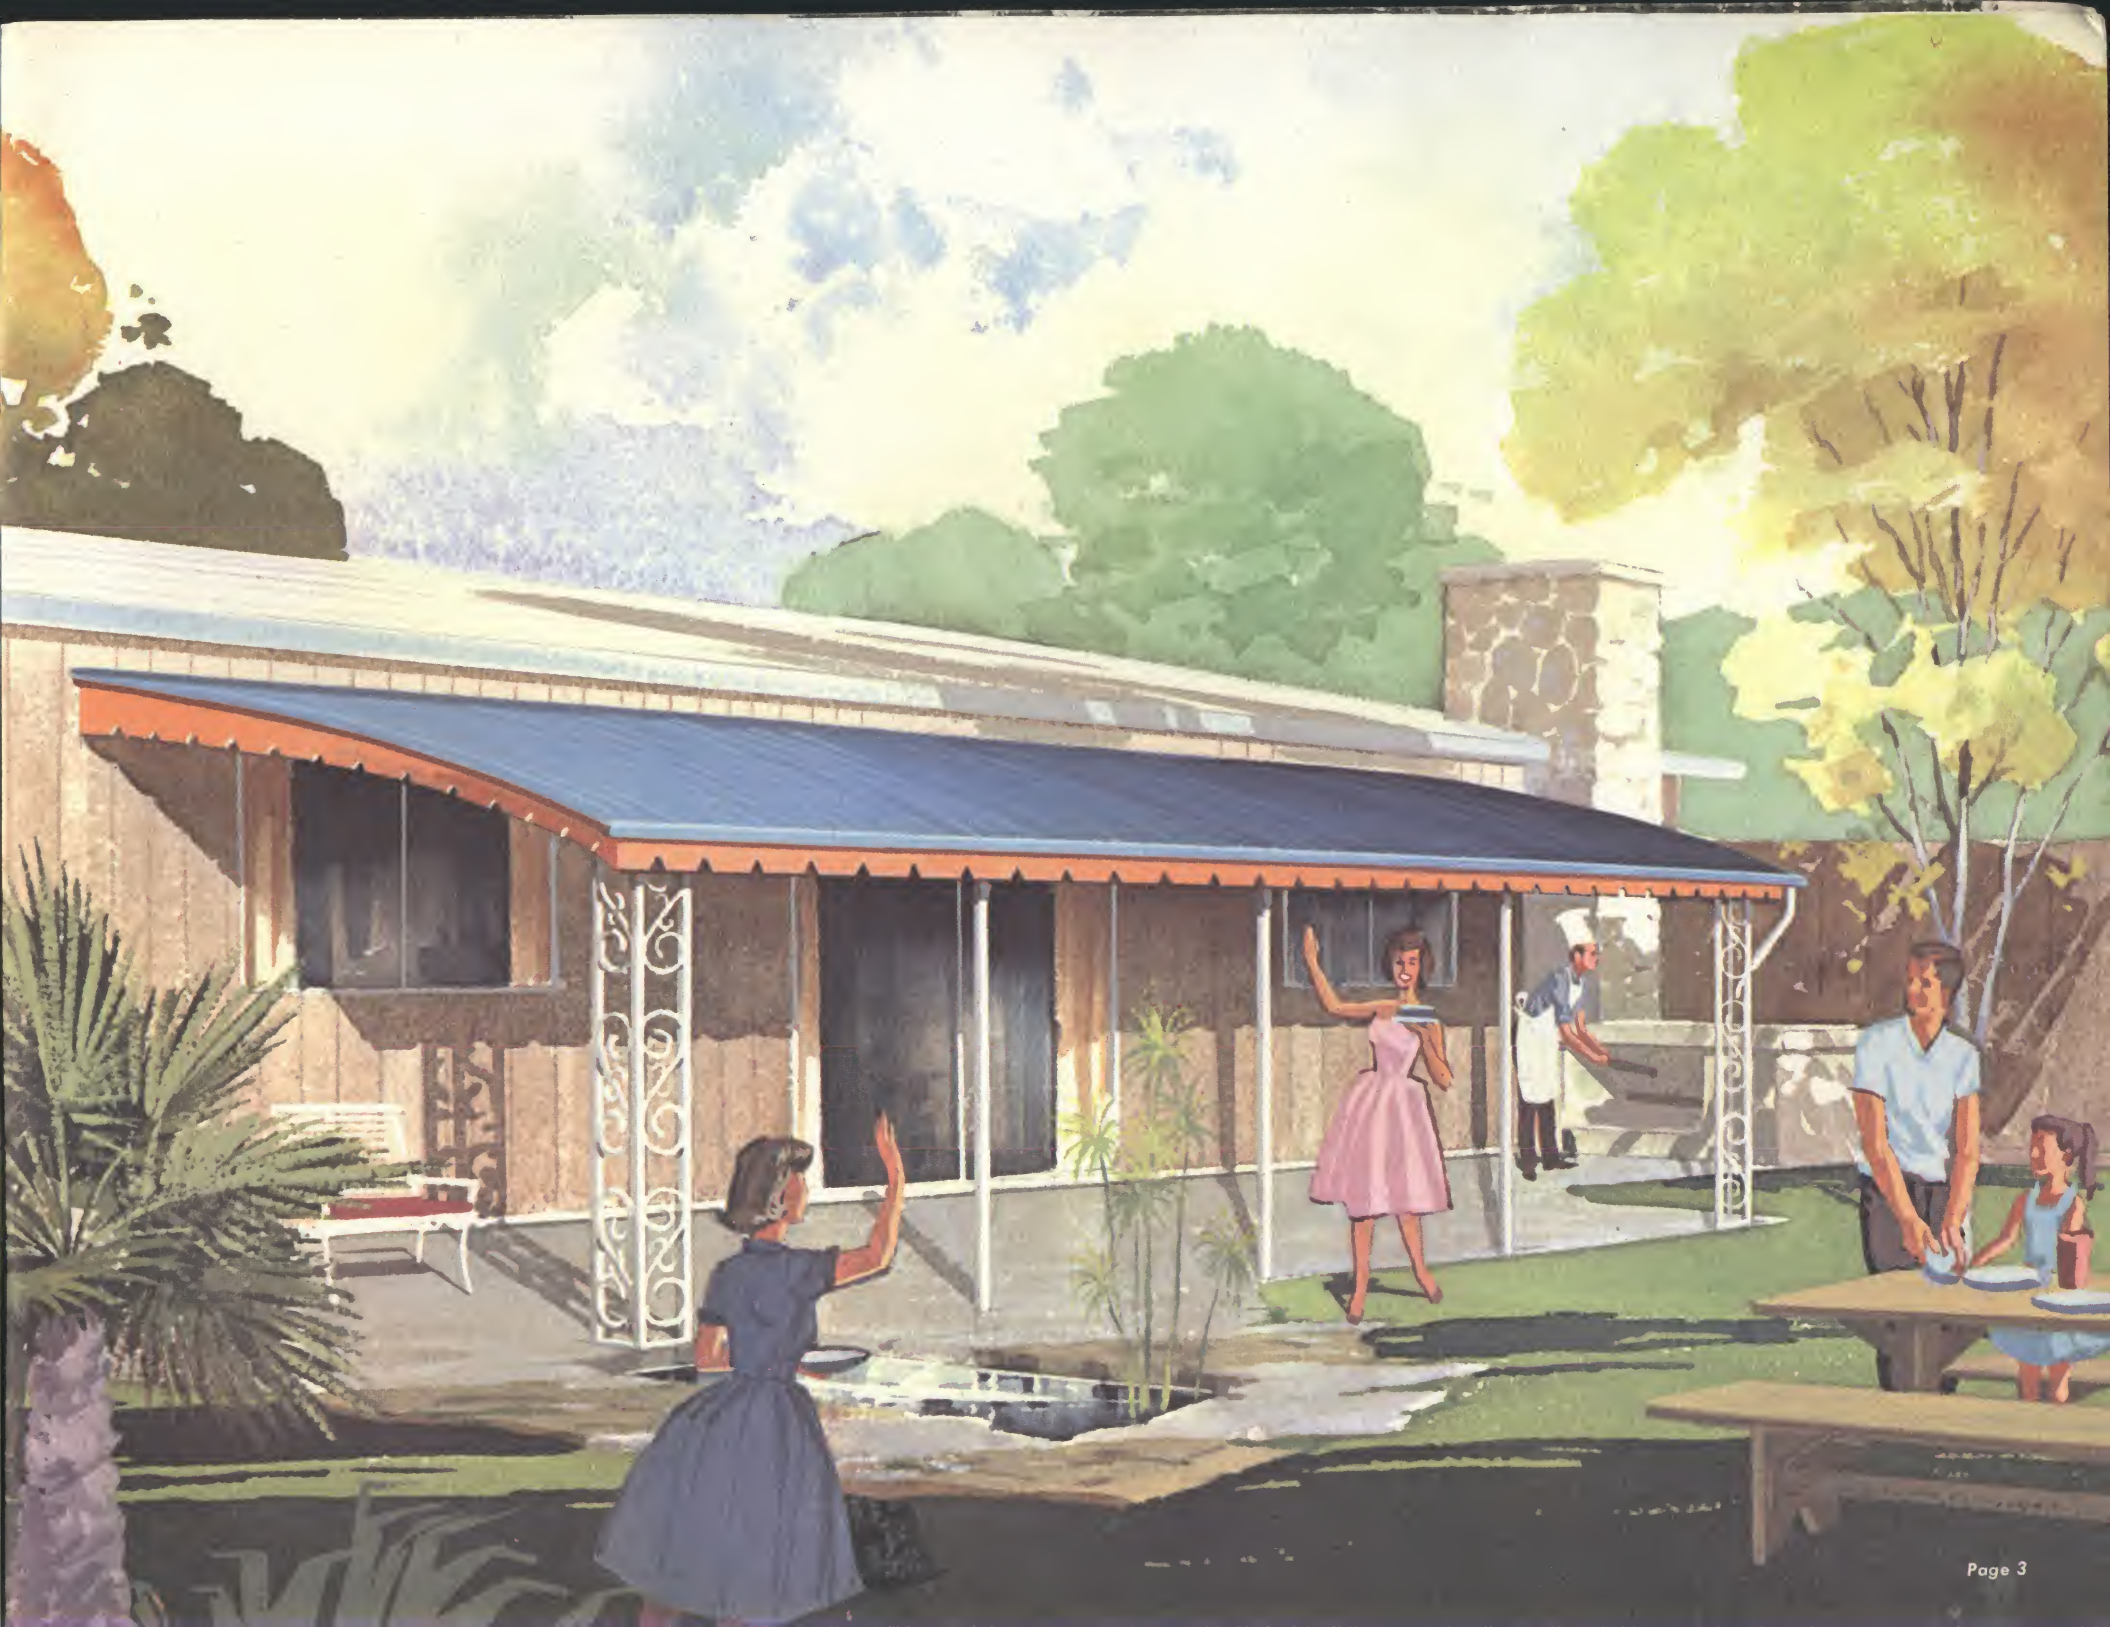

Patio Awning

ALL OUTDOORS IS YOUR LIVING ROOM!

Here is the most Exclusive aluminum awning you can obtain for your home. The Silver-Top All Aluminum Awning is used by thousands of satisfied customers all over the United States and the Free World. Your home will take on new beauty, with the light, but strong and compact Silver-Top. If you desire more living space, the addition of the Silver-Top Bridge-Braced Curved Aluminum Awning is, foot-for-foot, dollar-for-dollar, the easiest, safest, best-looking way to expand your living area.

Available in a choice of glamorous decorator colors, the Silver-Top will compliment your home. It is so ingeniously constructed and engineered that if you live in a southern climate, the Silver-Top will keep you much cooler. If you live in a northern climate, the Silver-Top will withstand strong winds and heavy snows. Famed as "The Awning That Can Grow," the Silver-Top Bridge-Braced Aluminum Awning is a beautiful, practical way to add more room and greater comfort to your home.

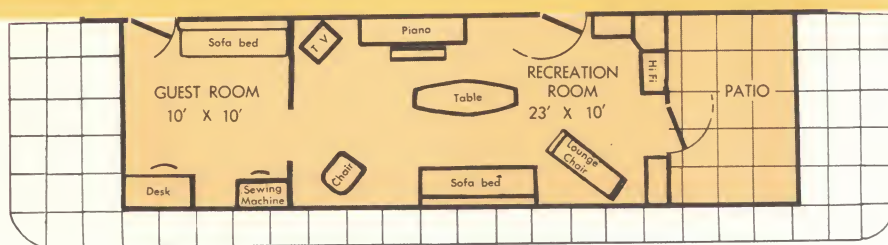

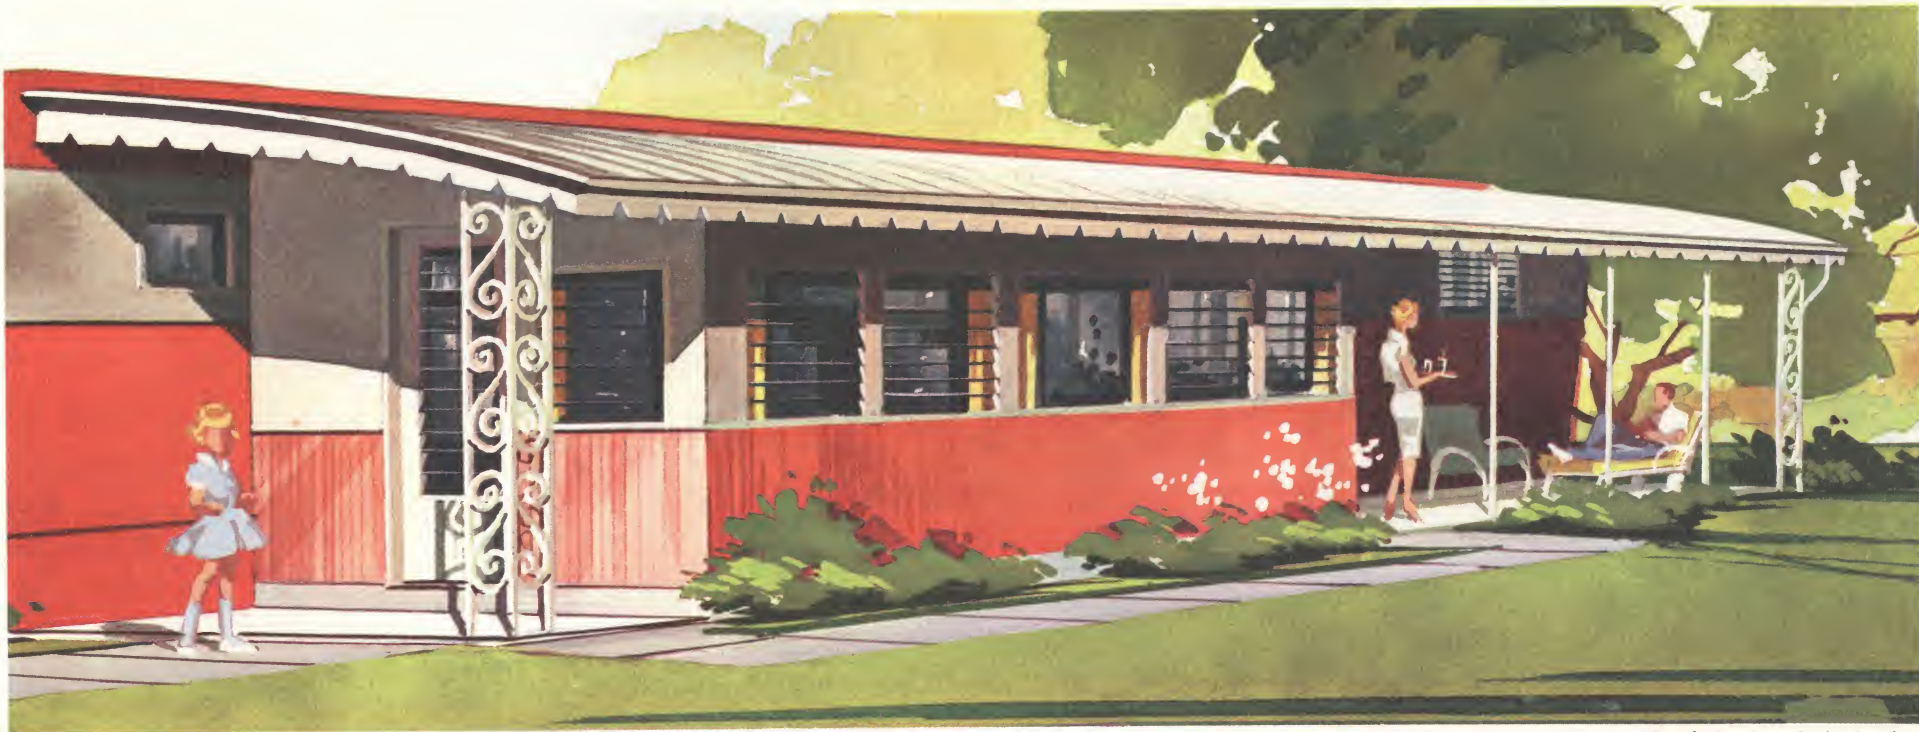

Jalousie Room • Patio Awning

JALOUSIE ROOMS DESIGNED FOR PLEASURE

The Jalousie Room with its summer sunshine appeal is a real paradise for the interior decorator. Tropical motif or perhaps a conventional den, there are no limits to the various ways you can utilize the smart new Jalousie Room by Silver-Top. Order yours now, and if you wish, you may add a Silver-Top Screen Room for the perfect touch of luxurious living.

The all new Jalousie Room is designed for pleasure and at a price you can afford. It can be added to the single roof Model S or the double roof Model D awning. Jalousie sections, fashioned with embossed aluminum facing on both sides, will make the perfect Florida or summer room. The plus product that can't be over-looked, the Jalousie Room by Silver-Top. If you prefer a Year-Round insulated structure, may we suggest the Silver-Top Ranch Room.

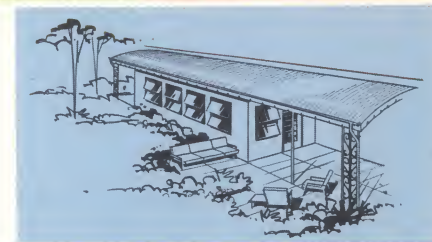

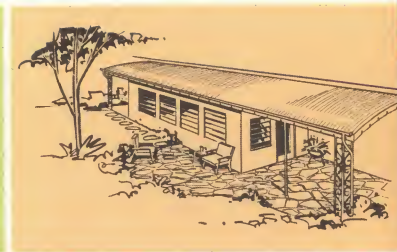

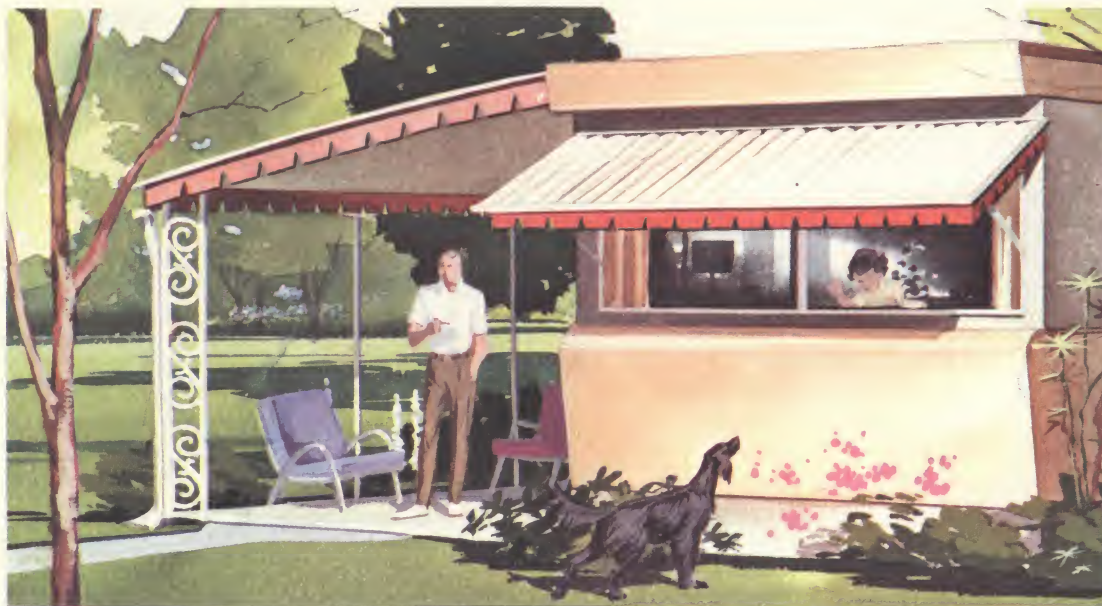

Ranch Room • Patio Awning

RANCH ROOM SPACIOUS LIVING

Want to add MORE living space to your home? Here's the answer: Transform your Silver-Top All Aluminum Awning into a handsome RANCH ROOM. Leading designers throughout America have already seen the many advantages of installing a Ranch Room to homes. With the model D awning the panels form a smooth, insulating ceiling. Then you add Ranch Room Triple Insulated Sections that quickly "slide-'n-fit" into place. You can Do-It-Yourself. No outside help needed. Use your Ranch Room as a Family Room, a Recreation Room, Guest Room, Extra Bedroom, Cabana, Den, Studio, Library or Hobby Room. The Ranch Room is a simple, practical way to add more LIVING SPACE TO YOUR HOME!

Ranch Room sections are available in various styles and sizes, and you have a wide, wonderful choice of Silver-Top Decorator colors. Here are three of the most popular plans in use today. Of course, we invite you to fashion a Ranch Room to your own needs and choice. Picture windows, solid sections, jalousie, awning windows and complete door sections, make your planning arrangements easy.

Window Awning

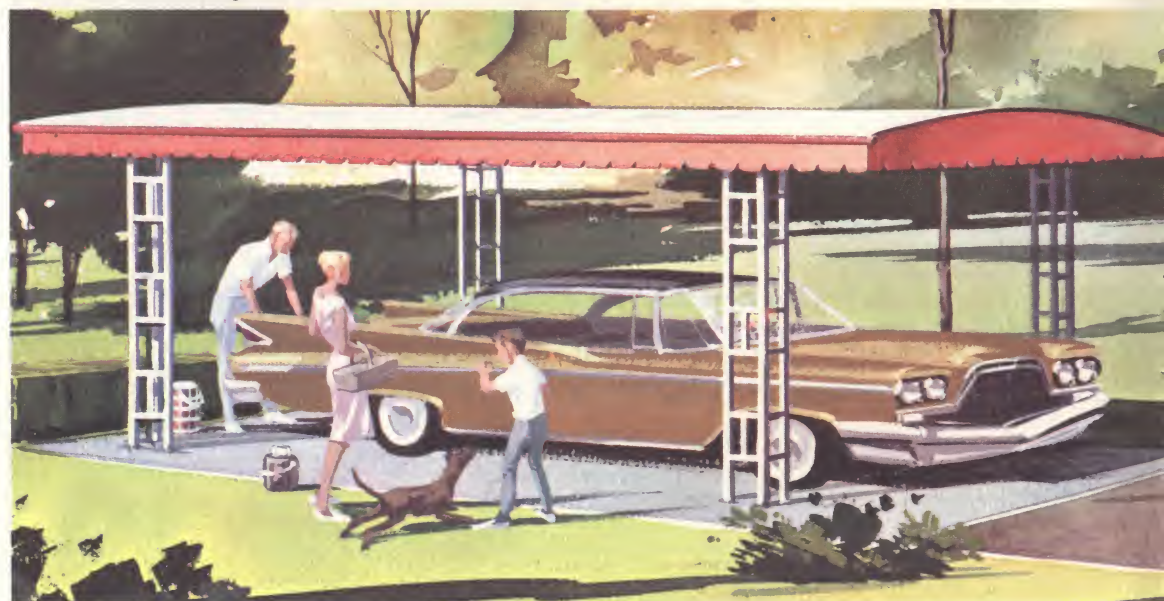

WINDOW AWNINGS

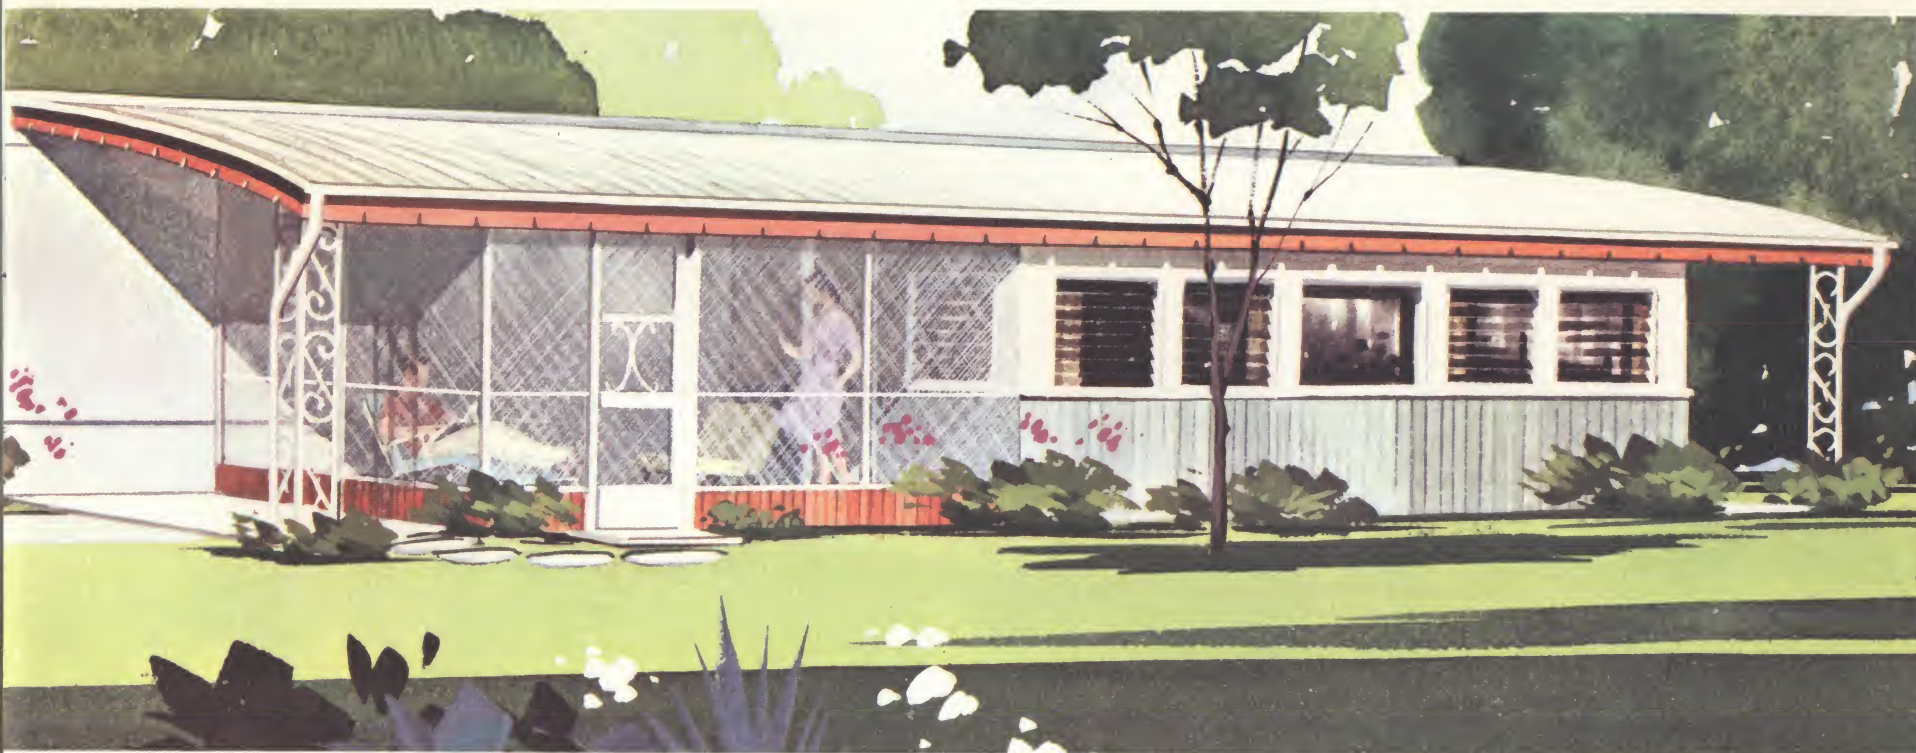

The Silver-Top Look gives charm to individual windows, as well as protection from sun and rain. Smartly designed all-aluminum awnings that adjust up or down easily. They can be quickly attached, quickly removed. Installation is so simple that it's an easy Do-It-Yourself job. Silver-Top Window Awnings are completely assembled and include mounting rail, caulking tape, screws and adjustable arms. Careful attention to details make Silver-Top the best buy for your money, the best investment for your home.

CAR PORTS

Your car deserves protected parking in a car port and Silver-Top is the inexpensive answer. The Silver-Top Car Port, with Bridge-Braced construction, is ruggedly built to withstand strong winds and heavy snows and it gives your home a handsome look of permanency and distinction. The design illustrated here is a free standing unit, 20 feet long, and is available in 10 and 12-foot widths. Additional lengths are available by special order. Decorators find the Car Port ideal for a free standing Patio Awning, too.

Car Port or Patio Awning

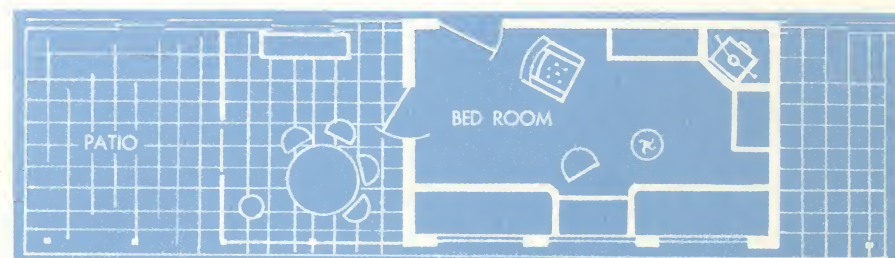

Screen Room Combination — Ranch Room • Patio Awning

ENJOY INDOOR-OUTDOOR FAMILY LIVING

Yes, it's true. The remarkable Silver-Top All Aluminum Awning does "Grow." It can adapt itself to your every need. For example, you can add the Screen Room to your Ranch Room or Jalousie Room. The easy instructions, accurate engineering makes this Do-It-Yourself project a pleasure. To create spacious Indoor-Outdoor family living, you can rely on Silver-Top. And, if you want to add that extra touch of luxury, you can install a smooth, custom-fit interior ceiling. Every Silver-Top Awning has built-in channels for this purpose. Just one more of the many EXCLUSIVE features of the patented Bridge-Braced All Aluminum Awning by Silver-Top. Remember, ONLY Silver-Top gives you the "utmost" of luxurious living, with the awning that "Can Grow," to meet your every need.

Our interior decorators have designed this practical floor plan as one of the countless ways for you to utilize space, for more enjoyable Indoor-Outdoor family living. The Silver-Top All Aluminum Awning, knows no boundaries to its unlimited versatility. Plan new frontiers in your family living today by ordering Silver-Top now.

QUALITY FEATURES

1

SIDE VALANCE

Preassembled to the end curved Bridge-Brace, this decorative valance follows the full curve flow of the roof. Ample clearance and modern decor are highlighted.

2

CORNER ORNAMENTAL COLUMNS

Specially strengthened and designed ornamental aluminum columns add that extra appeal and distinction, to enhance the appearance of a Silver-Top Awning. Adjustable for height. Optional at extra cost.

Silver-top

U. S. Patent No. 2618820

3

CENTER BRACES

Made of extruded aluminum, these braces are precision cut and die-punched to be assembled between each curved Bridge-Brace. All are pre-punched for later installation of extra Bridge-Braces to form the Model D awning.

4

FRONT BRACE

Similar to center braces in function, but not design. This important extrusion holds the roof panels to the understructure.

5

BRIDGE-BRACED CHANNEL

This is a patented feature made only by Silver-Top. Insulated ceiling panels slide easily in place. You are assured of future use through this versatile feature.

6

CURVED BRIDGE-BRACE

This is the main support of the SILVER-TOP awning. Incorporated in this Bridge-Brace are the built-in channels for the insulated ceiling panels.

7

ALUMINUM FASTENERS

Made to rigid SILVER-TOP specifications, aluminum bolts and nuts will never rust. To insure a leak tight fit, neoprene washers are furnished with each roof bolt.

8

ORNAMENTAL COLUMNS

Specially strengthened and designed ornamental aluminum columns add that extra appeal and distinction, to enhance the appearance of a Silver-Top Awning. Adjustable for height. Optional at extra cost.

9

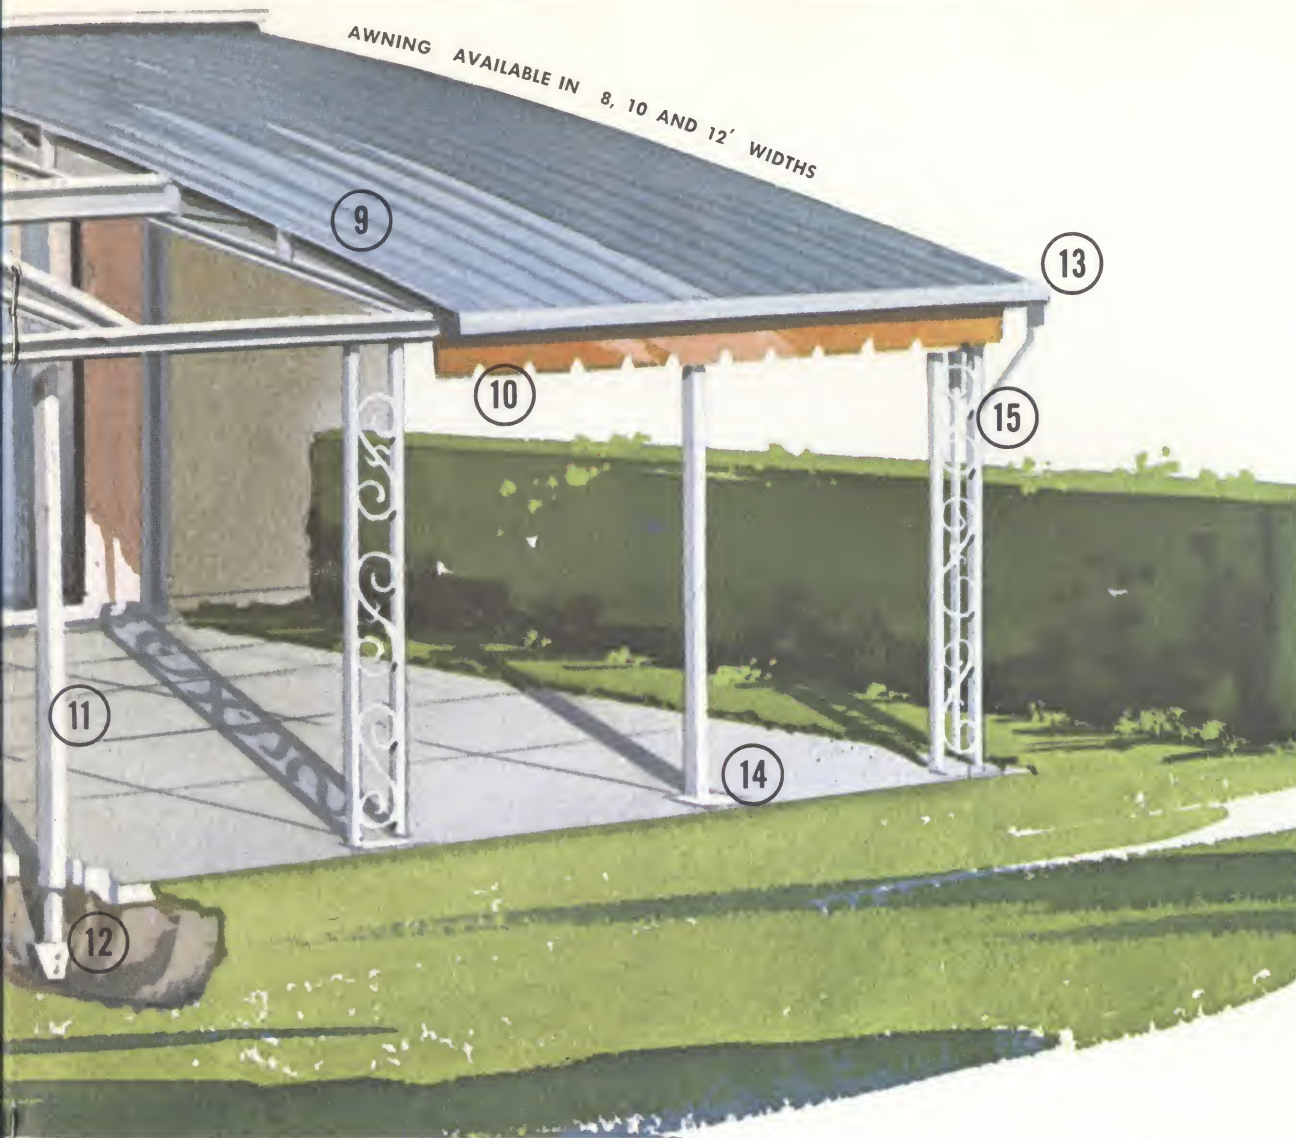

ROOF PANELS

Rigid embossed aluminum panels are easily assembled. No leaks are assured by a double-overlapped assembly. Corrugated rubber inserts complete a water tight fit.

10

FRONT VALANCE

A smart looking matching trim made of heavy embossed aluminum. Its graceful scalloped lines form the Hallmark of a SILVER-TOP awning.

Patio Awning Model S

11

SQUARE ALUMINUM POLES

Heavy supporting poles afford paramount strength and durability. Poles are adjustable while clamp clips assure easy assembly.

12

GROUND ANCHORS

Standard at no extra cost with Silver-Top, these ground anchors supply positive retaining power. Choose either ground anchors or base plates.

13

SURE-FLO GUTTER EXTRUSION

This aluminum extruded gutter is first and far afield in eye appeal as well as performance. Prevents rain splashing on your patio. Assures gutter free performance.

14

BASE PLATES

Standard at no extra cost with SILVER-TOP, these base plates supply positive retaining power to concrete or wood patios. Fittings are furnished.

15

DOWNSPOUTS AND SPLASH GUARDS

The downspouts are made of extruded aluminum and are curved and styled for top performance. The splash guards are mounted to assure proper water flow. They are standard equipment.

EASY-TO-INSTALL... JUST DO IT YOURSELF

1

It's a thrill when your neatly packaged Silver-Top Bridge-Braced aluminum awning arrives at your door. Don't let a minute get by. Open it up — and let's get started enjoying the comforts and luxury of the famous Silver-Top.

2

"Wow! Look at these instructions, they're great. They're easy to follow, complete with large illustrations. These simple steps and the fine precision built pre-punched strong extrusions make it as simple as a-b-c to install."

3

"That precision machinery used by Silver-Top does the job. Why, it practically joins itself together and I saved on installation costs by doing it myself. I guess I'll fill-in my Silver-Top register card and drop it in the mail."

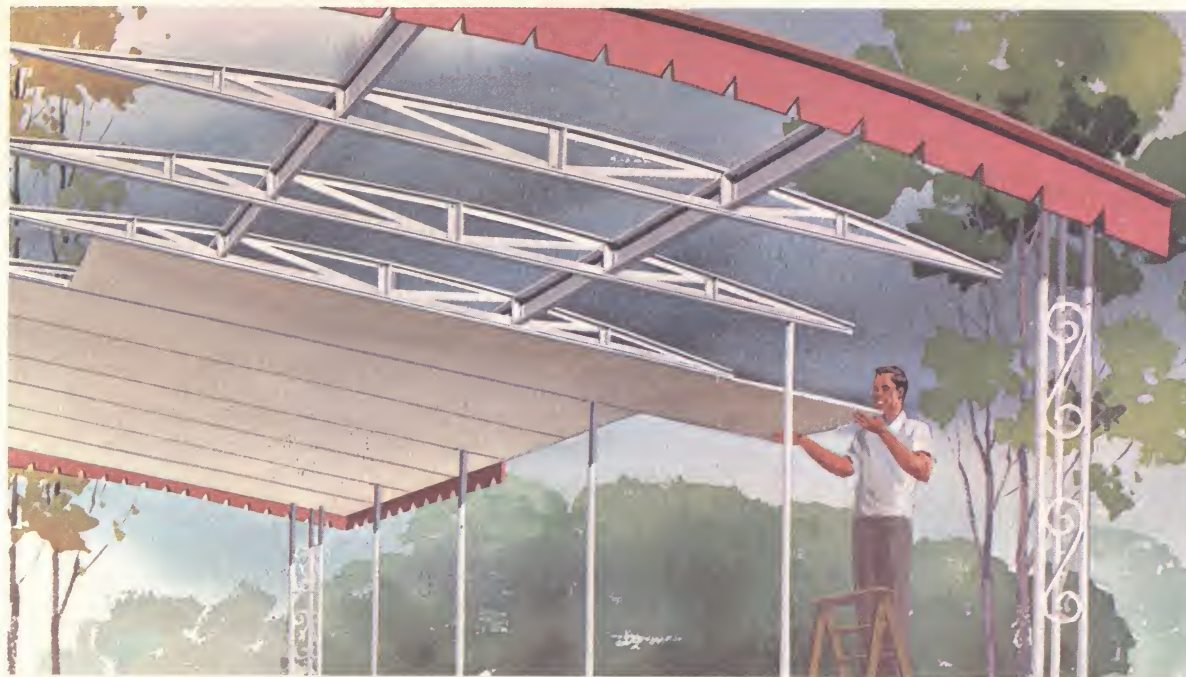

Silver-top[®]

INTERIOR CEILINGS

INSULATE AND GLAMOURIZE

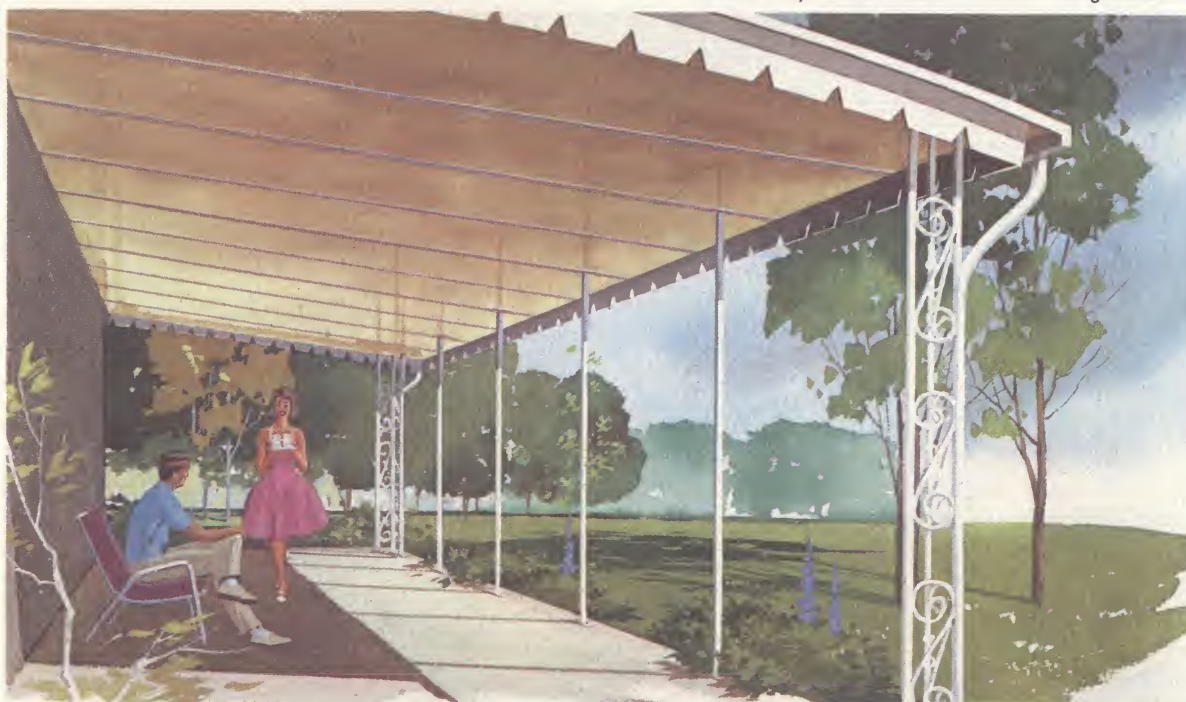

Silver-Top All Aluminum Bridge-Braced Awnings are available in two feature models, the Single Roof awning Model S and the Double Roof awning Model D. You may purchase the Model S awning now and at a later date desire to add the interior ceiling. This can easily be done as all Model S awnings are pre-punched and channeled for later installation of the double roof ceiling. To install the insulated ceiling in the Model D, just slide the insulated panels into the extruded Bridge-Braced channel. These panels are painted white or can be bonded with vinyl plastic as an optional feature at extra cost.

Silver-Top leads the way, with beautiful smart styling and "It Can Grow." Yes, Silver-Top truly grows with your family and it's so easy. You needn't be a magician as only Silver-Top has the patented Bridge-Brace structural method of adding panels to form a smooth insulated ceiling. This is a feature that assures you your awning will always conform to your new and various needs. No Obsolescence here. Join the smart set, buy a Silver-Top, the All Aluminum Awning with versatile magic. Available in 8', 10' and 12' widths, any length desired, and Silver-Top Decorator Colors of your choice.

Installing Insulated Ceiling • Patio Awning Model D

Bonded Vinyl Plastic Panels • Patio Awning Model D

SCREEN ROOMS FOR REFRESHING BREEZES

It's easy with a Silver-Top All Aluminum Awning to add a glamorous Screen Room to your home. Do-It-Yourself, in a few hours, by adding rust-proof vinyl clad aluminum screened panels directly to the square supporting poles. Each panel has a special kick-plate along the bottom providing protection against water or perhaps that stray foot or chair. The ~~sliding~~ screen doors may be placed at the side or in front if you so choose. The Screen Room can be added to the Ranch Room or the Jalousie Room. Remember it's designed for pleasure and at a price you can afford.

Screen Room • Patio Awning

HERE'S HOW YOU CAN DO IT . . .

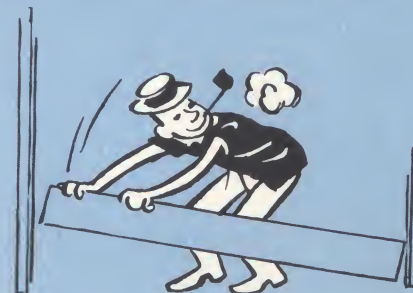

1. Don't wait until that buzzing "Bugs" you, let's get started. First, make sure the supporting poles are plumb.

2. "Say, this is going to be a snap. Why didn't I buy my Screen Room sooner? Now, secure the channel with metal screws to the poles."

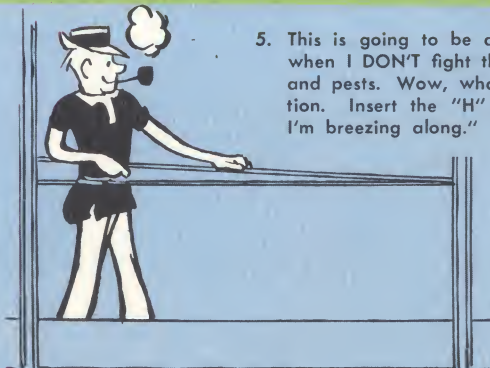

3. "Boy, oh boy, the Mrs. thinks I'm a real genius, because I ordered a Silver-Top Screen Room. Now I just insert the adjustable aluminum kick plate at the bottom."

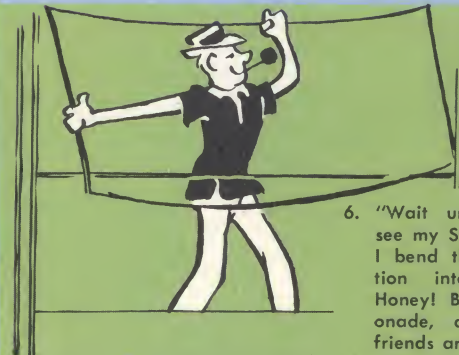

4. "Those people in Silver-Top's Engineering Department really know how to design. I just bend the bottom vinyl clad rust-proof aluminum screen section into the channels."

5. This is going to be a summer when I DON'T fight the insects and pests. Wow, what protection. Insert the "H" stiffener, I'm breezing along."

6. "Wait until my neighbors see my Screen Room. Now I bend the top-screen section into the channels. Honey! Bring out some lemonade, a couple of our friends are joining us in our breezy Silver-Top Screen Room."

1. Section to Section Assembly

2. Section to Corner Post Assembly

3. Section to Door Jamb Assembly

The finest weatherproof insulating-building board known! Homasote combines unusual strength and resistance to moisture and air infiltration, with important sound-deadening qualities, thoroughly treated for protection against termites, fungus and rot. Proven by many years of service in all weather extremes from the heat of tropical Africa to the frigid cold of Alaska. Homasote is used nationally in the construction of homes, buildings and mobile homes.

Combining aluminum, fibre-glass dead-air space and Homasote covered with vinyl plastic, Ranch Room sections are of the finest construction known today.

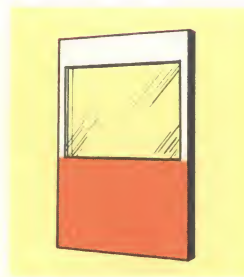

HIGH JALOUSIE WINDOWS

Three and four foot widths. Window opening is 34" from floor. Your choice of clear or obscure glass.

LOW JALOUSIE WINDOWS

Three foot widths only. Window opening is 23" from floor. Your choice of clear or obscure glass.

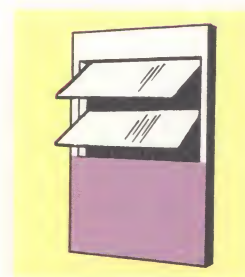

PICTURE WINDOWS

Four foot widths only. The factory installed glass is 34" from floor. Clear glass only.

SOLID SECTIONS

One-two-three or four foot widths. Openings may be cut in any solid section. Also used in partitions.

AWNING WINDOWS

Three-foot widths only. Beautifully designed for custom installation featuring double pane windows. Clear glass only.

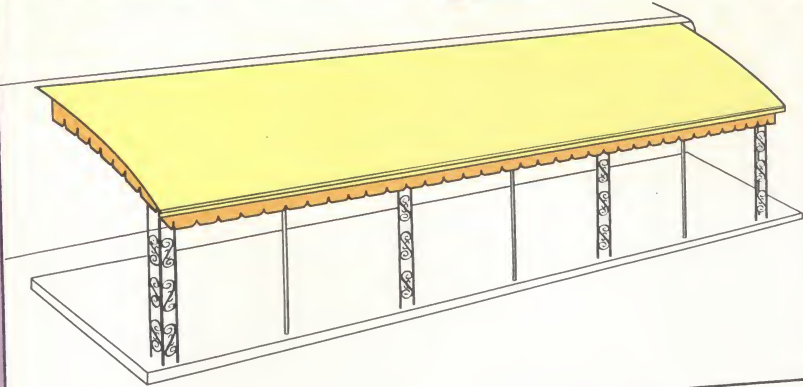

JALOUSIE DOOR SECTIONS

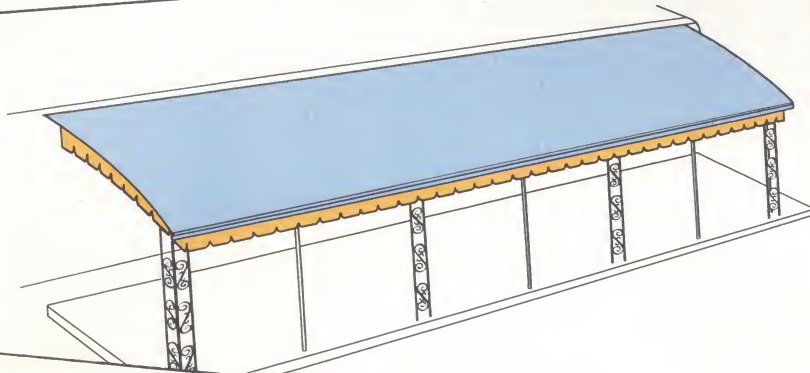

Complete in a master frame. Three-foot widths, opens right or left hand. A choice of clear or obscure glass.

Ranch Room Panels are equipped with vinyl clad rust-proof aluminum screens. Storm window frame is optional at extra cost.

EIGHT ATTRACTIVE SILVER-TOP DECORATOR COLORS

Our paint division features the smart Silver-Top Decorator Colors for Silver-Top Patio Awnings, Window Awnings, Car Ports and Ranch Rooms, an optional feature at extra cost. You have a choice of a vast rainbow of colors for that look of distinction. Standard or matched colors are available to harmonize with your home. Silver-Top Decorator Toned paint assures rich locked-in colors and captures good looks for keeps. Rain or shine! Silver-Top leads the industry in style and color.

Silver-top

... BUILT STRONGER

Your Silver-Top All Aluminum Awning can take it . . . and then some! Let it storm. Your Silver-Top is a rigid awning built to withstand all kinds of weather. The secret of its great strength is its exclusive, patented Bridge-Braced Curve. No other Aluminum awning offers this unique, outstanding engineering concept. The Bridge-Brace eliminates rattles and vibrations. This is another Silver-Top EXCLUSIVE feature. Silver-Top is an ALL-WEATHER AWNING, designed to withstand the strong winds and snows, and because it is ALL Aluminum, the roof of your Silver-Top will deflect the rays of the hottest sun. There's no question about it . . . for strength . . . and beauty, there's no better-made Aluminum Awning than Silver-Top. So, insist on the best . . . Silver-Top . . . it costs no more!

Actual Unretouched Color Photograph • Patio Awning

... TO LAST A LIFETIME!

This patented Bridge-Brace* structure is found ONLY in products made by the Silver-Top Manufacturing Co., Inc. Designed to specific strength through prescribed hardness, aluminum extrusions are used to form the Silver-Top Bridge-Brace. Because it is ALL EXTRUDED ALUMINUM and not a pressed steel or pressed aluminum, you are assured of a QUALITY and PATENTED product when you buy Silver-Top.

 UP TO 15" HIGH.....per lineal ft. .80
 15" TO 30" HIGH.....per lineal ft. 1.52

GENERAL INFORMATION

- The Screen Room is designed to be attached directly to the poles of the Silver Top Awning.
- The width of the room for installation under the awning is approximately as follows:
 6'10" wide—for installation under an 8 ft. awning
 8'10" wide—for installation under a 10 ft. awning
 10'6" wide—for installation under a 12 ft. awning
- All parts are included to make a complete room.
- Height of room is adjustable from 6'6" to 7'6". Kickplate is made of aluminum and is adjustable.
- Screen Room may be ordered in any length. Price is determined by next larger size. For a 22 ft. Screen Room, price would be the same as a 25 ft.
- Price includes one hinged door. For extra door—add \$48.00 to above price. Doors may be placed in front, right, or left side of room. Always show location of Screen Room in relation to awning. Also show location of door. Make sketch on Room Order Blank as shown in example drawing opposite.
- When ordering the Screen Room it is necessary to give 3 measurements:
 - Distance from top of patio floor to top of channel rail.
 - Distance from top of door to top of channel rail.
 - Distance from bottom of mobile home to top of patio.
 Fill in measurements in block at bottom of page 2 of Order Blank. See inset of Order Blank opposite for example.
- For price of awning, see Single Roof Price List. Add this price to cost of Screen Room. See example opposite.

Jalousie Room may be ordered in any length. Price is determined by next larger size.
Example: For a 25 foot room, specify 25 ft. when ordering. Price would be the same as a 26 foot room.

1. All sections are Jalousies. All parts are included to make a complete room.
2. The width of the room for installation under the awning is as follows:
 INSIDE DIMENSIONS
 6 ft. wide—for installation under an 8 ft. awning
 8 ft. wide—for installation under a 10 ft. awning
 10 ft. wide—for installation under a 12 ft. awning
 For approximate outside dimensions add 5 inches more to the width and 6 $\frac{5}{8}$ inches more to the length.
3. Height of sections may be made from 6 ft. to 7 ft. according to requirements for clearance of door on mobile home. However, standard sections are 6'6" high, 3 inches thick.
4. When installing the Jalousie Room the patio should be level.
5. Door is in a sectional frame assembled for installation. Price of room includes one edge grain fir Jalousie Door either varnished or painted white. For extra door add \$37.00.
6. Doors open out except when used in length of room. To determine right hand door; face door to enter room—the door knob is on your left. To determine left hand door; face door to enter room. The door knob is on your right.
7. Price of room includes standard single metal thickness gable ends. For double walled gable ends with metal bonded to Homasote add \$88.00 to price of room.
8. Either clear or obscure glass is available for Jalousies.
9. Jalousies are 16" from floor and come complete with screens.
10. Interior and exterior are wood grained aluminum.
11. Electrical outlets are installed near bottom of any section. Specify on Order Blank distance from corner to place outlet is desired. Wire is not included.
12. The Jalousie Room may be installed under either the single roof or double roof awning.
13. When ordering the Jalousie Room it is necessary to give 3 measurements:
 1. Distance from top of patio floor to top of channel rail.
 2. Distance from top of door to top of channel rail.
 3. Distance from bottom of mobile home to top of patio.

Fill in measurements in block at bottom of page 2 of Order Blank. Also show location of Jalousie Room in relation to awning and location of door.

Make sketch and fill in measurements as shown on page 4 in Screen Room example.
